The product specification in the manual can be changed without notice for the improvement of product quality.

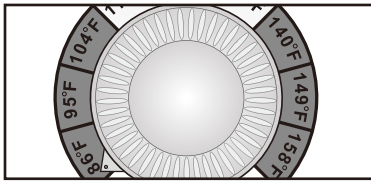

Please read the instruction guide carefully. Before you connect the power plug, spread the mat on a bed or the floor in order to smooth out any folds.

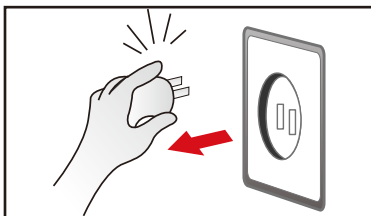

First Insert the connector of the controller into the mat. Then connect the power plug into an outlet.

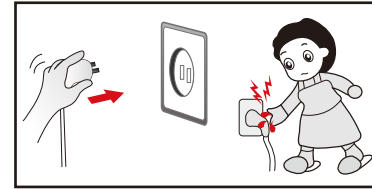

Press power button to turn on the power. Press timer button to set heating time, and Warm lamp will light up.

Turns temperature control dial to set desired temperature of the mat. Once the product is sufficiently warm, adjust the setting for your comfort.

Turns power button off and unplug power cord from the outlet when you are not using the mat.

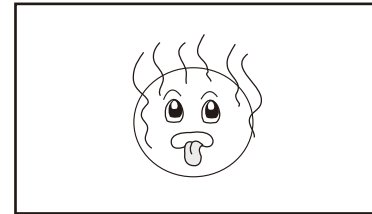

Please monitor the heat carefully while using the product for safety.

Please do not use a thick padding while using the product.

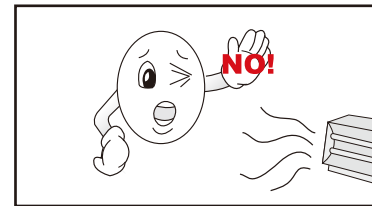

Do not have sharp objects puncture or damage the product.

Do not pull the electric cord with wet hand. This may cause electric shock.

Please make sure the product is dry before using. If you spill liquid on the product, please dry the product completely before using.

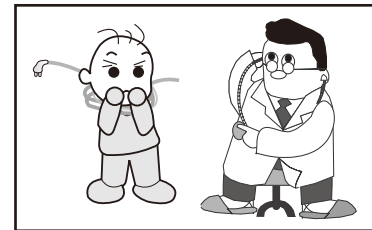

Heat can cause a skin irritation or burn. Please lower the temperature if it becomes too hot.

Do not use the product folded or crumpled.

Do not use the product near any fire, heating appliances, or flammable objects. This may set fire or electric shock.

Please do not let children play on or near the product.

Please stop using the product and contact us if there is any problem. Please consult with your doctor if you have any medical question.
